NED | NATIONAL ENDOSCOPY DATABASE

National Endoscopy Database (NED) Overview

Tom Lee

National Clinical Lead

JAG APPROVED

NED | NATIONAL ENDOSCOPY DATABASE

Background

- Comprehensive and reliable data on endoscopy are crucial to:
  - Service provision
  - Quality assurance
  - Research

NED | NATIONAL ENDOSCOPY DATABASE

Aim

- Prospective data collection from all endoscopy units in the UK
- Automated transfer of key data from local endoscopy reporting system (ERS) to national database (NED)

NED | NATIONAL ENDOSCOPY DATABASE

Governance and Support

- Funded by JAG

- Backed by:
  - BSG
  - JAG
  - AUGIS
  - ACPGBI
  - Royal College of Physicians
  - NHS England

Data Output

- Output will be based on JAG and BSG QA standards and key performance indicators (KPI)
- Presented to users via JETS in a dashboard format
- Integrate with JAG accreditation process and GRS audits

- Users will only be able to access their own data
- Local and regional administrators will be able to view data only from within their organisation or region.

NED | NATIONAL ENDOSCOPY DATABASE

Information Governance

NED working group have met as appropriate with;

- NRES
- Information Commissioner's Office
- Confidentiality Advisory Group

NRES, ICO and CAG have all approved the project and recommended NO individual patient consent is necessary.

As part of pilot process:

- Caldicott approval to be obtained locally

NED | NATIONAL ENDOSCOPY DATABASE

Endoscopist Involvement

- Only you and your organisations QA lead will be able to see your data.
- Your GMC or NMC number will be used to identify you.
- If you do not want your GMC or NMC number to be used, please contact your NED lead.
- NED data may be used for service evaluation and research. Endoscopist identifiers would be anonymised.
- You will be able to see your data on an interface like JETS - you will need to register for this if you are not already registered with JETS.
